

Project Title

Improving Nursing Documentation within the Nurses in Isolation Ward

Project Lead and Members

Project lead: SSN Gianan Elizabeth Ramos

Project members: SSN Aye Chan Moh, NC Hema Malini

Organisation(s) Involved

Ng Teng Fong General Hospital

Healthcare Family Group Involved in this Project

Nursing

Aims

The aim is to develop a systematic documentation while incorporating on the existing nurses' documentation templates. To ensure the content of information documented is accurate, reliable and able to be comprehend across the ISO nurses and their healthcare partners within the ward setting.

Background

See poster appended/ below

Methods

See poster appended/ below

Results

See poster appended/ below

Lessons Learnt

- The unified information documented, increases the visibility of nursing interventions' among the ISO nurses.

- Positive attitude was embraced by the nurses towards the change outcome instead of taking it as a regular mundane task

Conclusion

See poster appended/ below

Project Category

IMPROVING NURSING DOCUMENTATION WITHIN THE NURSES IN ISOLATION WARD

LEADER: SSN GIANAN ELIZABETH RAMOS
MEMBER: SSN AYE CHAN MOH
FACILITATOR: NC HEMA MALINI

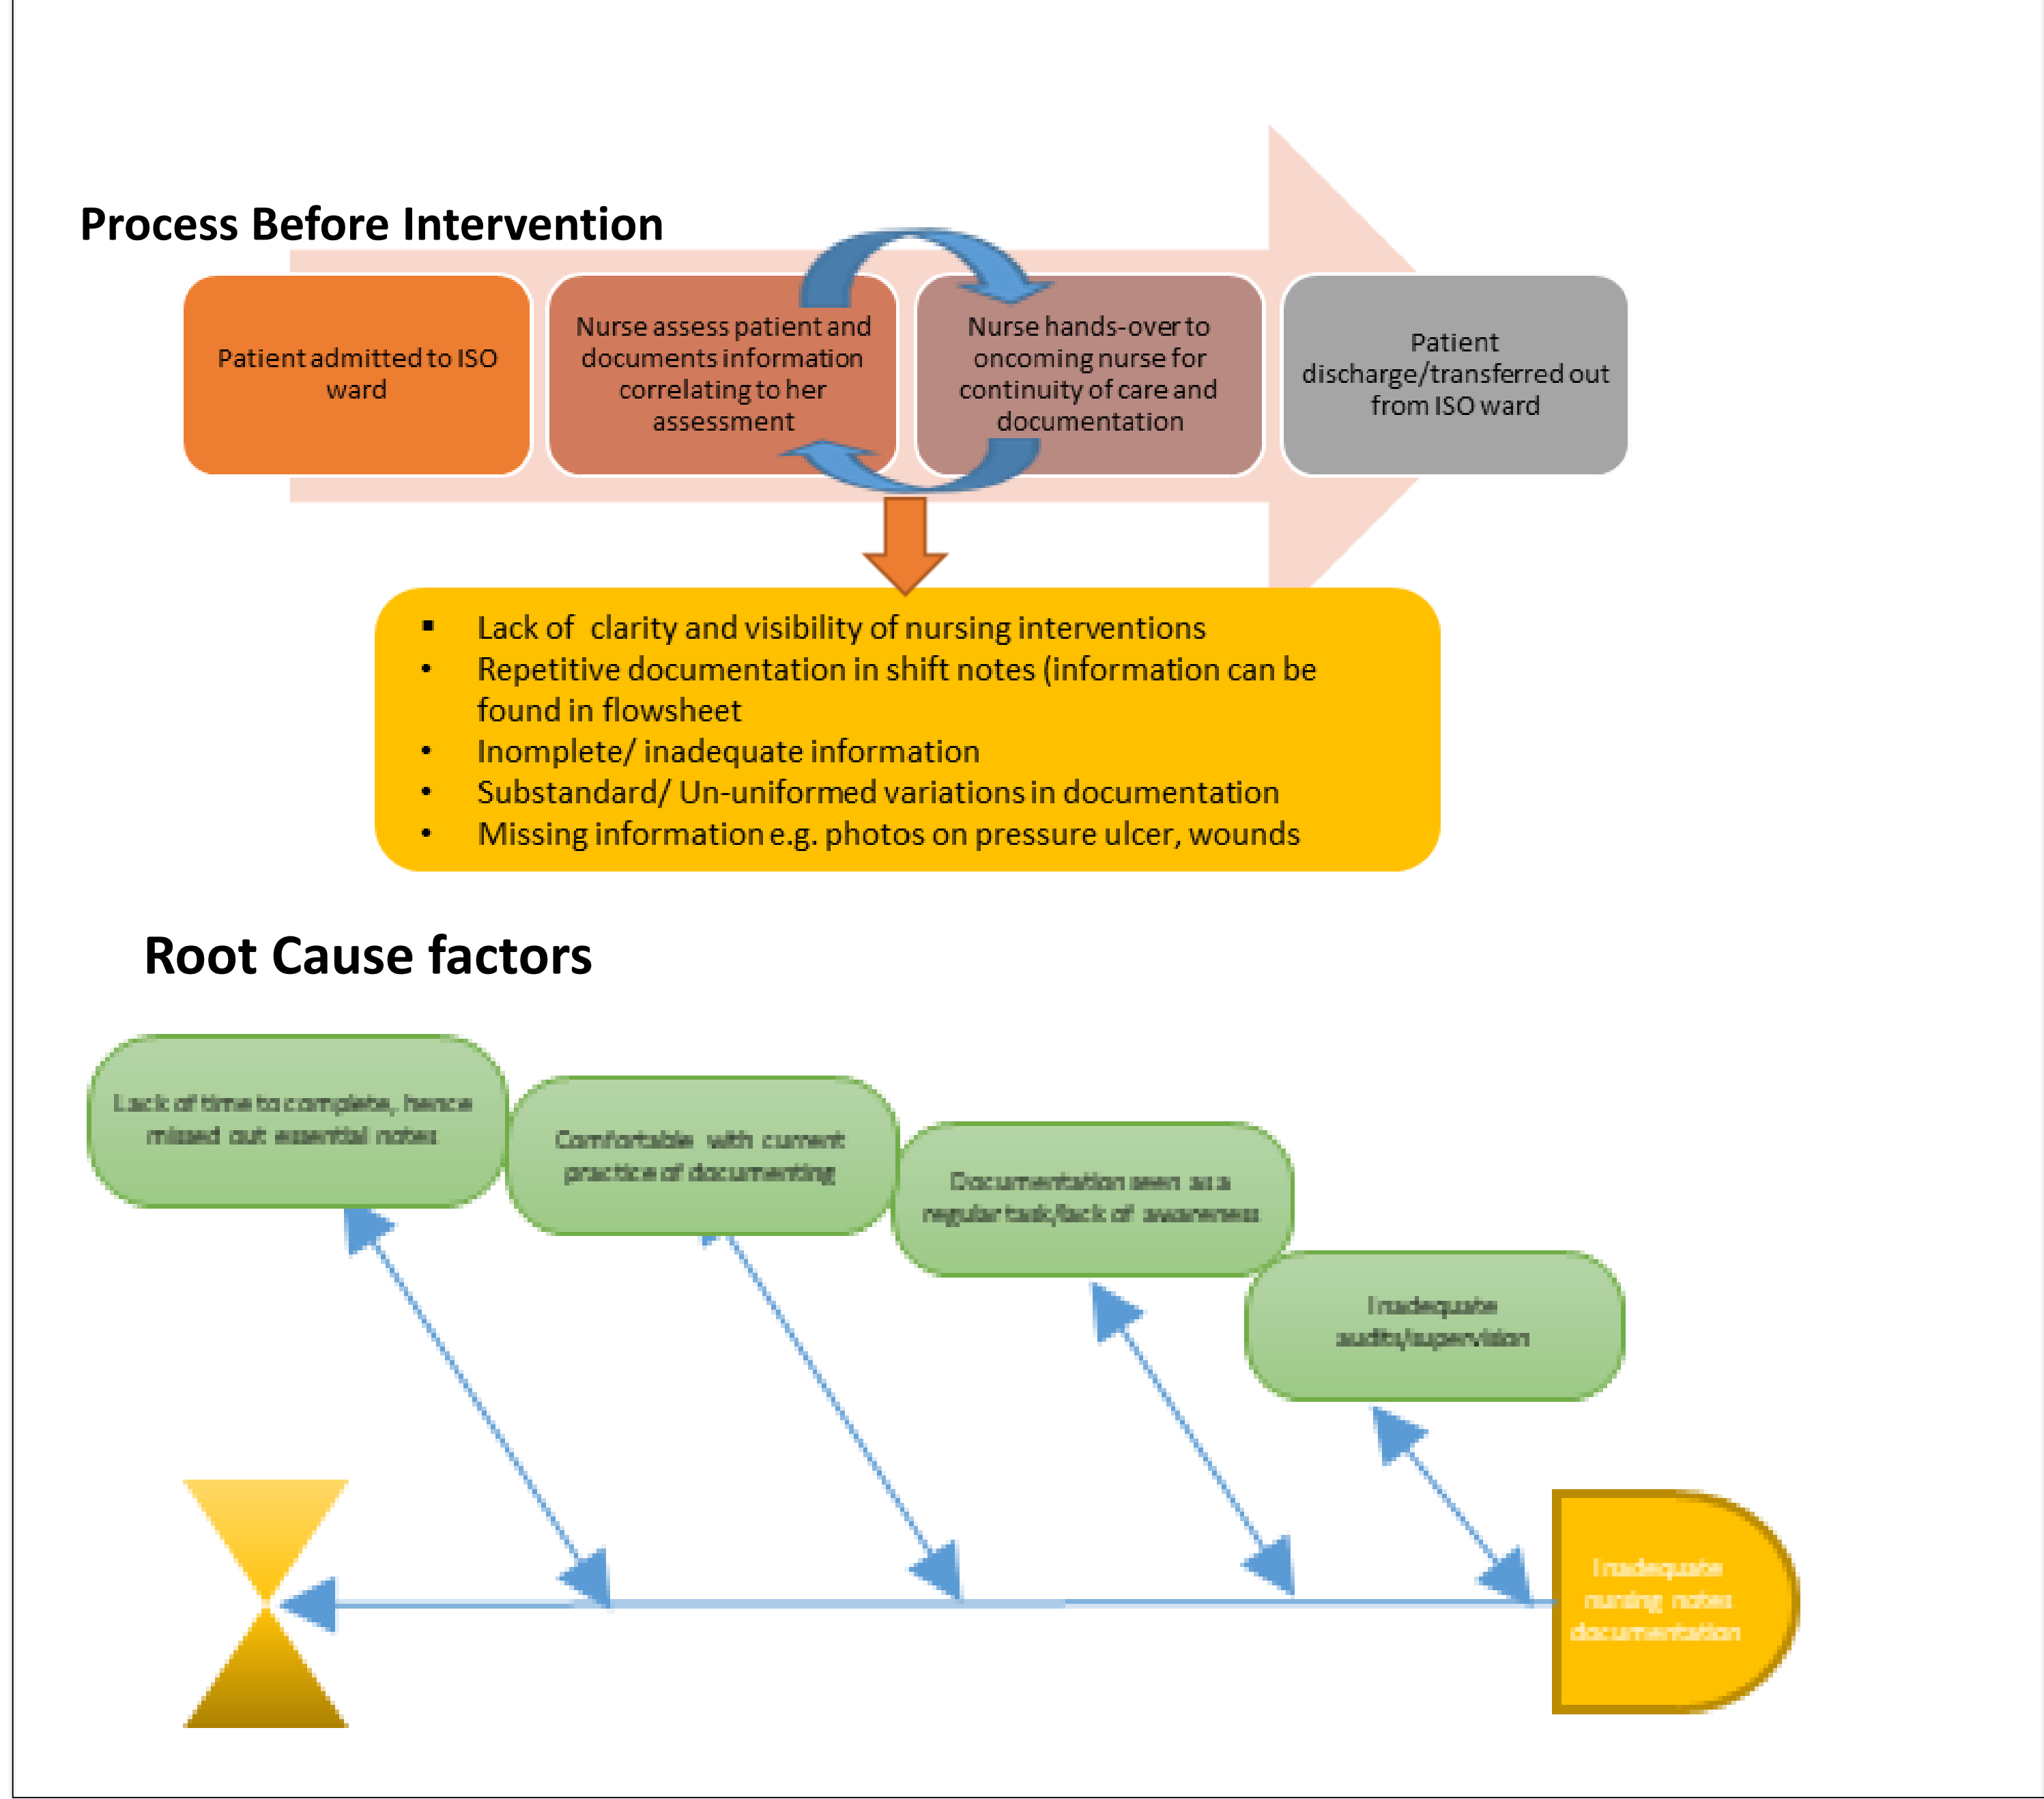

- ✓ SAFETY
- ✓ QUALITY
- ☐ PATIENT EXPERIENCE
- ☐ PRODUCTIVITY
- ☐ COST

Problem & Aim

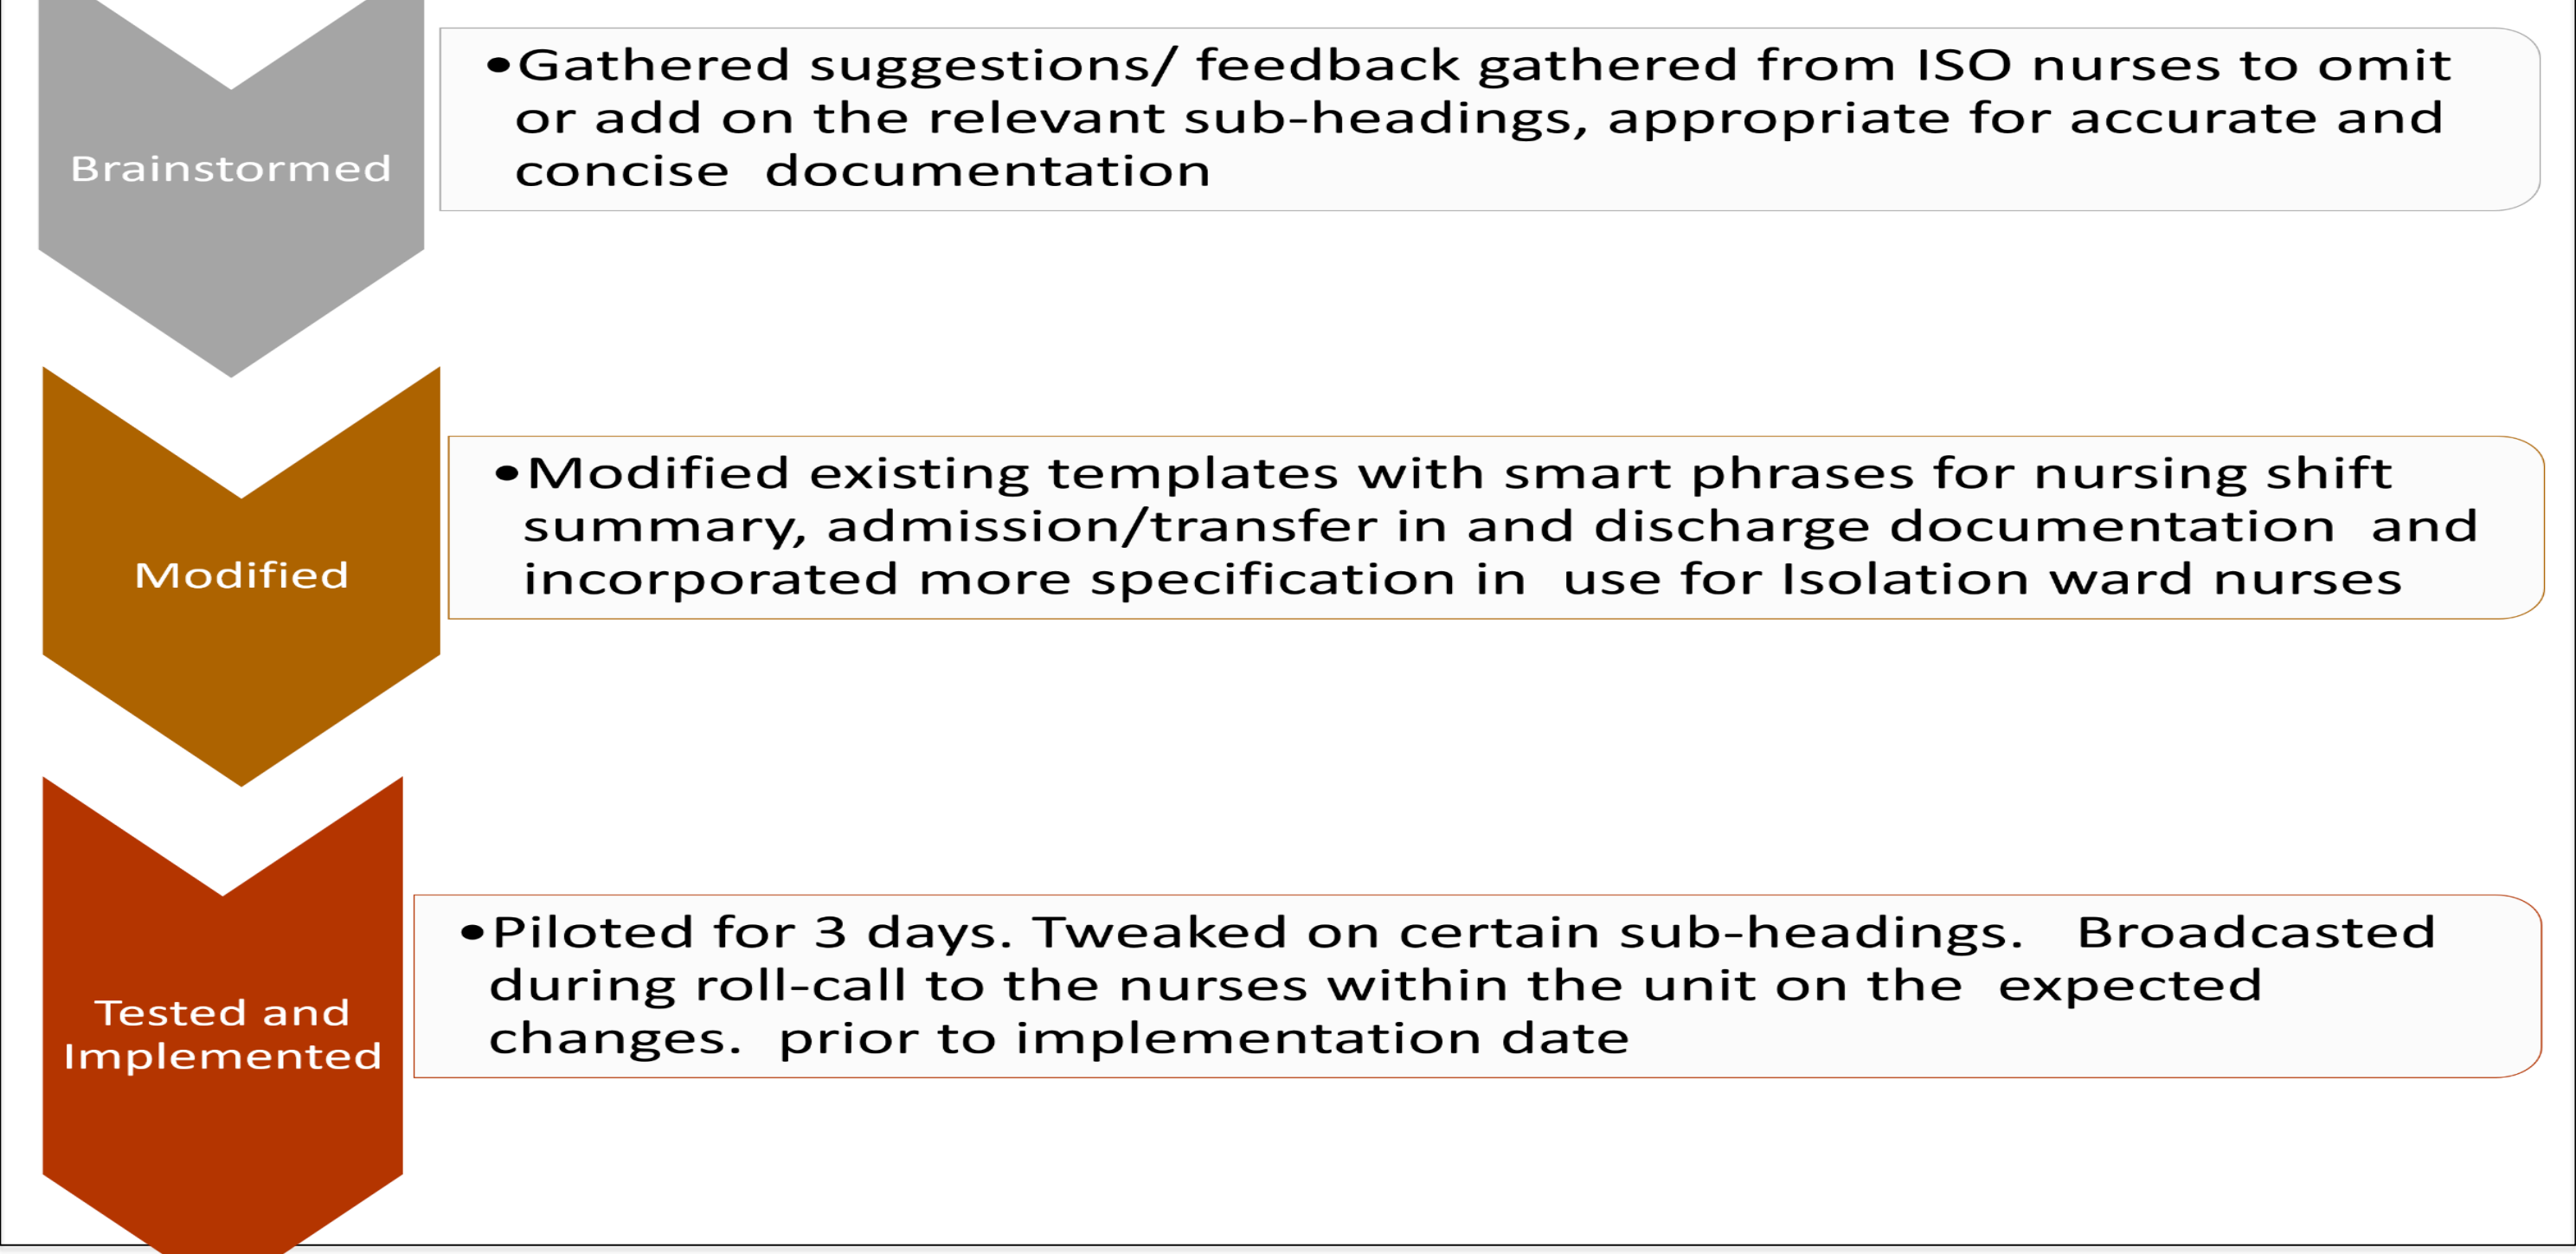

Problem
During investigation of SQ issues and other patient related enquiries in ISO Ward, crucial information on patient care were lacking. Moreover, the nurses in ISO ward had different variations in their daily nursing notes documentations on their patients’ care, which can inhibit patient well being. Hence, it led to decreased clarity and poor communication on patients’ continuity nursing care.

Aim
The aim is to develop a systematic documentation while incorporating on the existing nurses’ documentation templates. To ensure the content of information documented is accurate, reliable and able to be comprehend across the ISO nurses and their healthcare partners within the ward setting.

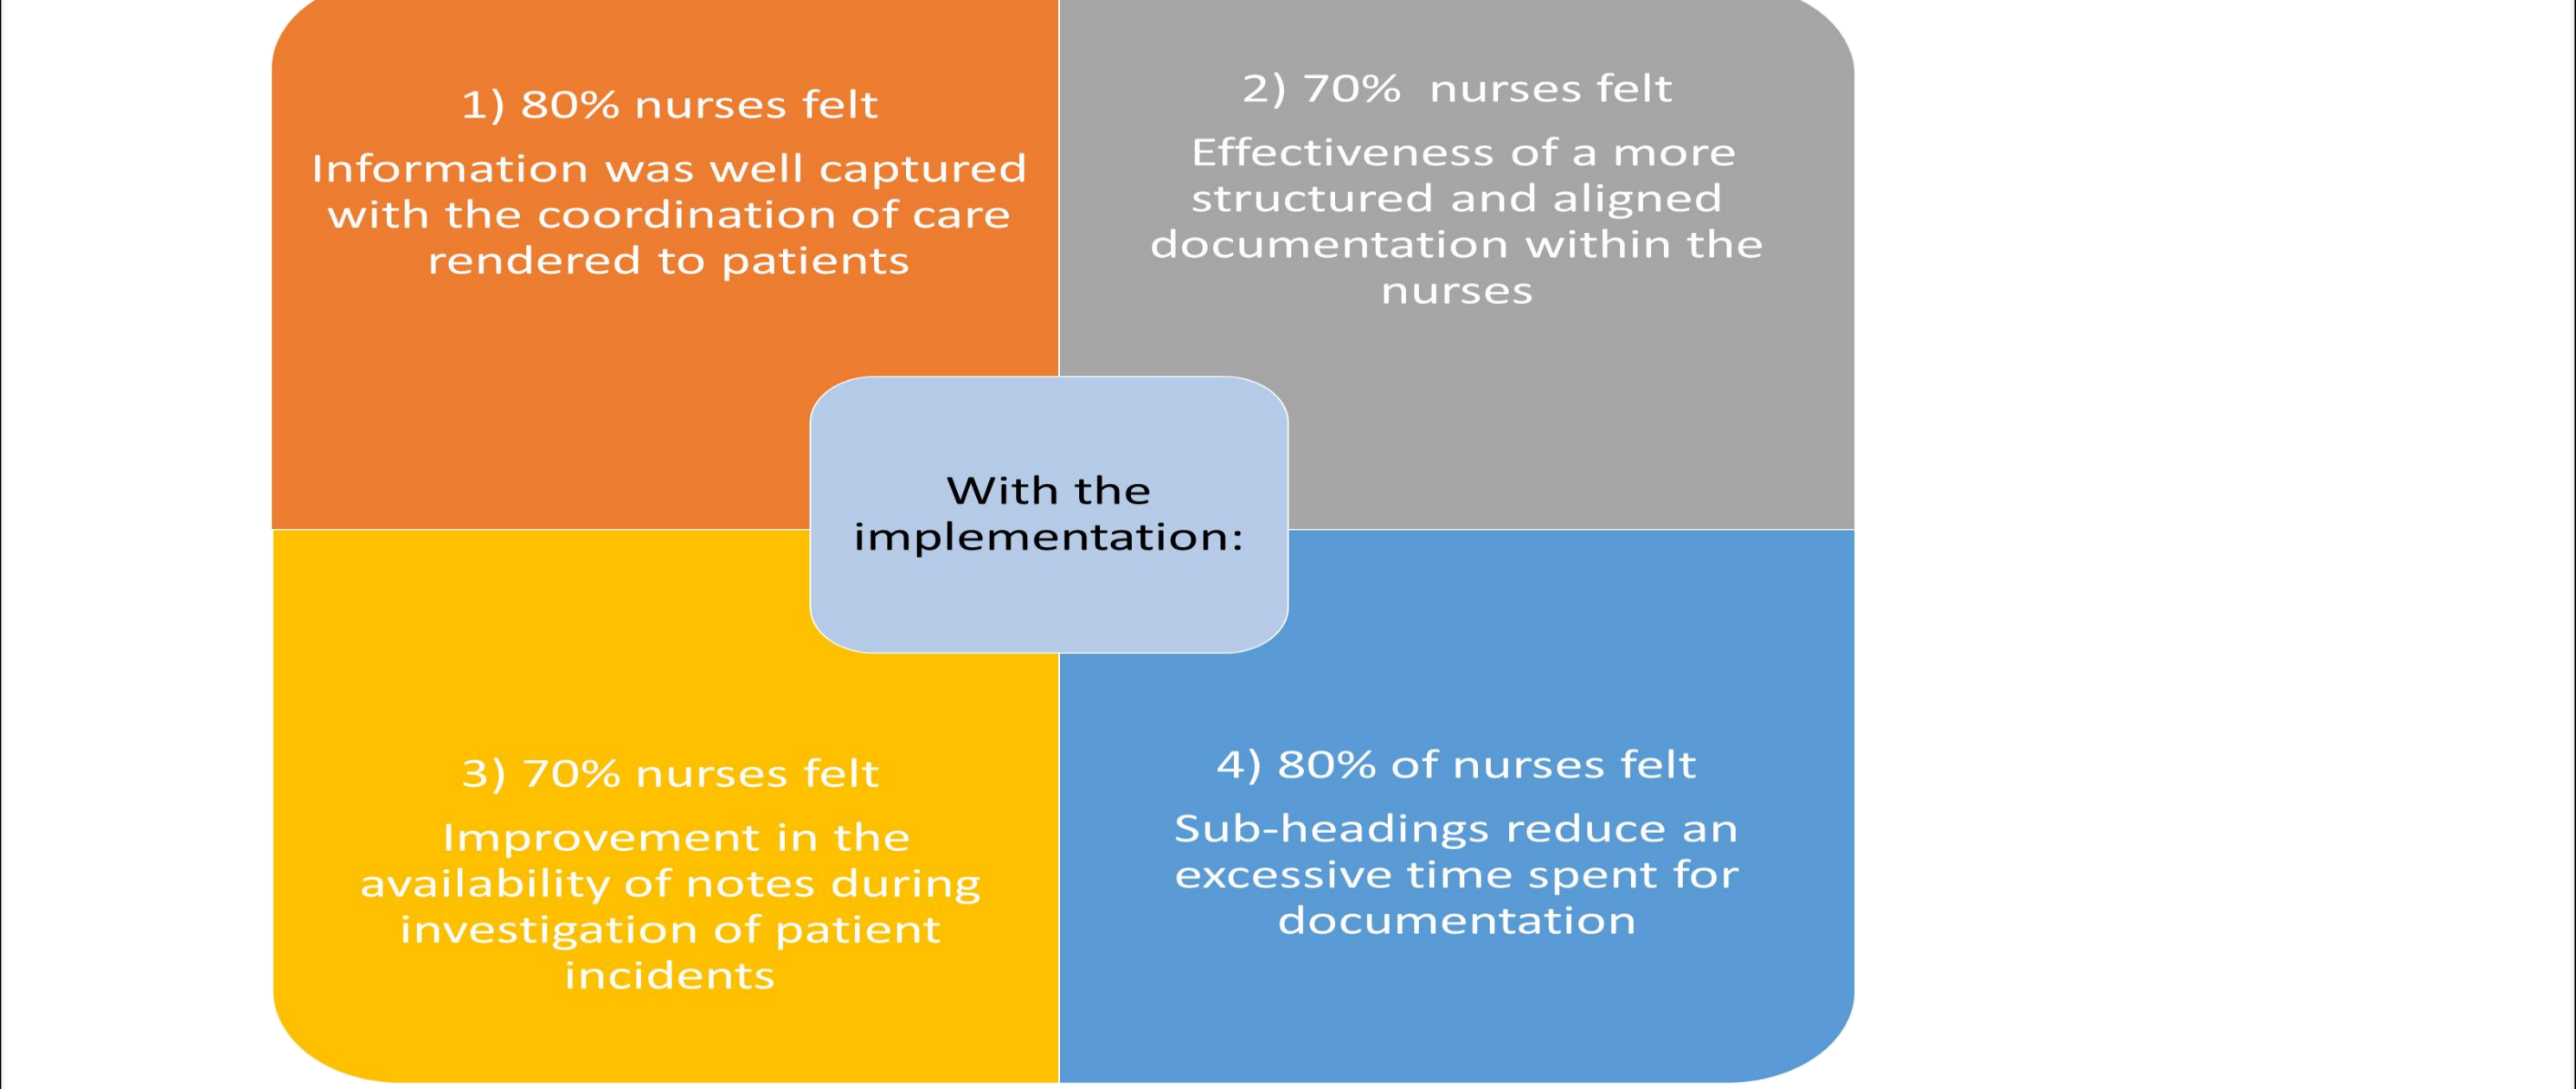

Analyzed Problem

Tested and Implemented Change

Results

Sustainability

- Regular audit checks for missing gaps, deviation and compliance
- Ongoing suggestions and inputs
- New hired nurses and transferred nurses were orientated on the nursing documentation

Learning Points

- The unified information documented, increases the visibility of nursing interventions' among the ISO nurses.
- Positive attitude was embraced by the nurses towards the change outcome instead of taking it as a regular mundane task
